Ms Magdalena Pulchny

Reference letter

Since 2011, I have been participating in activities improving the level of English language skills, with the lecturer Ms Magdalena Pulchny. I am very pleased with the way in which classes are conducted on which the emphasis is on the development of speaking skills.

Classes are prepared with full commitment, dynamism so I do not feel bored. We use many interactive tools to learn English in class. Particularly noteworthy is the knowledge of the teacher and her sense of individual needs as well as a nice and stress-free atmosphere.

Thanks to such activities, I can actively use English to break the language barriers.

With pleasure I am granting the reference and I recommend classes with Ms Magdalena Pulchny.

Sincerely
